Profile

I am goal-oriented project manager with excellent problem-solving skills. I have gained multiple years of management experience in development work and customer interaction. Those experience help my day-to-day ability to anticipate the needs of future projects by communicating with clients, stakeholders and with the development team.

Soft Skills: Project Management, Pragmatic, Team Player, Strong Leadership, Problem Solving, Initiative, Coaching
Hard Skills: .NET, Java, Python, JavaScript, REACT, Angular, JQuery, PowerBI, DevOps, Solidity, Crypto & Blockchain

Languages: Italian (*Native*), English (*C1 - Fluent*)

Experience

12/19 - Now   Technical Project Manager   BeatData Srl - Milan, Italy

I oversee the project life-cycle management, delivering and maintaining Enterprise Application in an Agile environment. Working closely with C-Level management on assigned projects from inception through implementation ensuring adequate internal communication between end users and developers. My main tasks include:
- Coordinating internal resources and third parties for the flawless execution of projects ensuring that all projects are delivered on-time, within scope and budget.
- Managing the availability of resources and their allocation to projects within respect to individual skills and schedule.
- Identifying technology, solutions, and training path to improve company efficiency and cost savings.

07/19 - 12/19   Technical Project Manager & Lead Software Engineer   NPO Sistemi Srl - a Ricoh Company - Milan, Italy

I have been a member of the Technology Area Board running the training schedule, identifying technology to invest on and organizing groups activities. I was a lead in designing and developing Enterprise Web Oriented .Net Application, IIOT Solution, Blockchain Notarization Software and responsible for analyzing Automation Anywhere RPA solutions.
Main technologies used include .NET, JQuery, REACT, Python, Solidity

08/2017	Lead Software Engineer	NPO Sistemi Srl - a Ricoh Company - Milan, Italy
08/2015	Software Engineer	NPO Sistemi Srl - a Ricoh Company - Milan, Italy
01/15 - 02/15	Software Engineer	Connect.ie - Dublin, Ireland
01/15 - 02/15	Software Engineer Trainee	RICOH - Milan, Italy

Personal Projects

2020 - Now   Materia: multi-standard EVM compatible Decentralized Exchange   Materiadex, OnChain Community

Materia is an exchange based on the Uniswap Protocol, the leader in the Ethereum Blockchain Defi environment. The project is a perfect example of decentralization and development driven by the community for the community. I am in charge of coordinating the development within an AGILE environment.
